## PROJECTS

[medsync ↗](#)

May 2025 - Present

MedSync – Scan, Understand, Stay Safe

MedSync is an innovative web application designed to make understanding medicines simpler and safer. With just a quick scan of a medicine's barcode or name, users can instantly access detailed information about the drug, including:

Key Features:

- Scan and Search: Instantly scan medicine packaging or type the name to fetch verified details.
- Usage Information: Understand the exact purpose and medical conditions the medicine is prescribed for.
- Dosage Guidance: Get general dosage recommendations (note: always follow a doctor's prescription).
- Overuse Alerts: Learn about the side effects and dangers of overuse or misuse, including long-term health risks.
- Accessible Anywhere: As a web app, MedSync works across all devices—no download required.

## SKILLS

- |                                |                                 |                                    |
|--------------------------------|---------------------------------|------------------------------------|
| • HTML                         | • JavaScript                    | • CSS                              |
